Welcome, dragon keeper!

One card for every dragon. No app or account needed.

1. Read first. Scan Setup & manual while your phone has internet. Then power on one new dragon and wait for it to wake.

2. Join your dragon. In phone Wi-Fi settings, choose a network starting **Dragon-Kingdom-**. Password: **dragon123**. If asked, stay connected without internet.

3. Open controls. The setup page may appear automatically. Otherwise scan Open dragon below. Browser login: **parent**; password: **dragon123**.

Setup & manual
Needs internet

Open dragon
Join dragon Wi-Fi first

My dragon's Wi-Fi name (optional)
Dragon-Kingdom-_____

Several dragon networks? Power off the others while setting up. Home Wi-Fi is optional; after joining it, bookmark the address shown in the controls.

Need setup again? Hold the right-side touch button while connecting power. Keep holding through the blue pulses; release when purple appears.
